

# Jay R. Smith Mfg. Co.<sup>®</sup> a better way

## ...your way with Custom Images— Custom Designed Drain Grates and Cleanout Covers

Custom Images allows the designer to create a personalized product that maintains its required function and echoes the visual nature of the building. Custom Images literally bridges the gap between mechanical requirements and the architectural need for appearance.

The Custom Images product line permit the designer to choose a custom design, add a logo or insignia to one of ours existing designs, or conceive a special image that better reflects the creative aspects of an interior or exterior application.

Custom Images can be added to floor, trench and area drain grates and cleanout covers as well as hydrant box and access covers.

Stainless steel grate  
with brass inlay

Brass grate  
with brown tile  
inlay
