

# For a complete product line, use what the experts choose, Jay R. Smith Mfg. Co. floor drains.

Jay R. Smith Mfg. Co. manufactures a variety of floor drains to accommodate different engineering and construction needs. We have floor drains for inside locations where the flow rate can be anticipated to area drains for outside applications where the rainfall intensity dictates size. Our floor drain line is designed for adaptability, conformance to code, ease of installation, and maximum performance.

When choosing a floor drain for your next construction project, large or small, look to Jay R. Smith Mfg. Co. We put our knowledge of your craft into each product we manufacture and distribute. From the time we receive your request, to the time the product is installed, we stand ready to serve you with engineering solutions and product innovations.

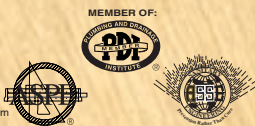

### The 2000 series, floor drain product line features:

- A full line of grate finishes
- A complete strainer collection
- Grates for all load classifications
- Drains for finished and unfinished areas
- A number of accessories, depending on the floor drain type
- A floor drain for all types of facilities

A sampling of the hundreds of designs available.
