*Floor mount series may also be used in commercial applications where applicable.

SELECTION OF VERTICAL FITTING WITH SIDE INLETS

To determine left or right hand fitting, face the stack from the fixture side of the wall. If the inlet is to the left of the stack, it is a left hand fitting. If the inlet is on the right of the stack, it is a right hand fitting. The vent is always located on the same side as the inlet on a single inlet stack fitting.

NOTE: Always specify fixture manufacturer's model name and number.
